SINGLE-SEATER POD

Find a quiet moment, even in the middle of everything.

Step into your own quiet space to take Zoom calls, present with confidence, and get work done—without distractions.

SOUNDPROOF FOCUS

Independently tested 30 dB acoustic performance with an arched, fabric-lined shell that cuts chatter and echo.

LOOK AND SOUND YOUR BEST

Tunable, eye-happy lighting creates the right environment so you look clear and feel confident on every call.

MADE FOR VIDEO CALLS

Designed for one, with just the right space and comfort to stay focused and appear professional.

EVERYTHING WITHIN REACH

Control your light, airflow, and session time, and keep your devices charged and ready.

LEADING THE SOUNDPROOF POD EXPERIENCE

Our single-seater pods wrap a single user in library-quiet focus. Independently tested 30 dB acoustic performance and an arched, fabric-lined shell cut chatter and echo so you can take calls with confidence and do your best work.

A MESSAGE FROM THE FOUNDER

Conferences are full of noise. That's why we built quiet.

Attendees move from session to session, take meetings in hallways, and try to squeeze important calls into crowded lobbies. When something important comes up, there often isn't a good place to take the call or get real work done.

Work Pods solve that. We create private, professional spaces right on the show floor so people can take calls, meet, and stay productive.

For organizers, that creates a premium sponsorship asset that stands out, gets used throughout the day, and opens up meaningful new revenue.

I saw an opportunity to create value on both sides. Attendees get a better event experience, and organizers gain sponsorship inventory that feels useful, premium, visible, and new.

**Our team looks forward to
working with you.**
