Western Inspired Pendant Workshop
Maximum Participants per Workshop: 25

Each participant will select one stone and finish one (1) pendant that is made with .925 U.S. Sterling Silver. A deerskin lacing will complete the necklace. Vegan options are available with prior arrangement. All stones and materials used are ethically sourced. Participants enjoy touching and searching for the perfect stone. Once returned home, each time the participant wears their necklace, it transports them back to the exact moment and place that they created it. As others comment on their beautiful necklace, they reminisce of the time spent in beautiful Colorado. This option can also be used at a reception where guests choose their stone, we make their necklace, package, and have delivered to their room.

A large selection of stones are provided for participants to choose from.

Painting Colorado

Maximum Participants per Workshop: 30

Participants encapsulate the beauty of Colorado in a themed painting using watercolor paint. Each participant will learn simple, beginner watercolor techniques. Choosing from 3 iconic Colorado themes, the original art will be finished with a pre-cut 8" x 10" quality white mat. The painting will be ready for framing once the participant arrives home, making the perfect Colorado memory marker. (This workshop works extremely well when paired with Wine or Mimosa's). This guided experience opens the channel to each individual's creativity giving a glimpse into the mystery of watercolor.

Colorado Artful Knots – Capturing the Essence of Colorado

Maximum attendees: 40

When you think of Colorado, images of majestic mountain vistas, towering pine trees, shimmering aspens, and vibrant wildflower meadows likely come to mind. Growing up here, we learned directions by the mountains—facing them meant facing west. West where the sun sets. Some of the most cherished moments in Colorado are watching the sun set over the majestic peaks, wandering through aspen forests, or marveling at the brilliant colors of wildflower-filled meadows.

Elevated Art Experience is excited to introduce our latest offering, allowing guests to capture the spirit of Colorado through art. Using reclaimed wood from Rocky Mountain National Park, participants can paint the vivid hues of a sunset or the beauty of mountain wildflowers. Each guest will start with a 5” diameter Aspen slice, either standing or flat, featuring a pre-burned design of mountains and pine trees or wildflowers. Guests then personalize their piece with pigments of their choice, creating a unique and stunning Colorado-inspired artwork.

When they return home and gaze upon their creation, they’ll be transported back to the moment when Colorado left a lasting impression on their heart.

Or, participants can choose to create a striking wall hanging. Each 9” x 10” live edge wooden plank comes with a beautifully pre-burned design, providing the perfect canvas for your personal artistic flair. Simply add your finishing touches to make a one-of-a-kind piece that captures the essence of Colorado’s natural beauty.

Meet the Creatives

Teri and Kaurie are a mother/daughter duo and Colorado natives. Teri, a former Art teacher started her art experience business 23 years ago after cancer took her out of the classroom. Combining her love for everything Colorado and her love for art, she developed an art business that draws inspiration from the beauty that surrounds her. Teri believes that each person has the inherent ability to create, they just may need a little guidance. It is her desire that art is available to all, to use with creative problem solving, or as a tool for healing. Kaurie started working with her mother at the age of 12 and has continued to build their art business by helping to create 6758' Gifting - an artisan gifting concierge service. It is both their desire to support those in the art industry and to help companies provide a "memory marker" for their attendees with either an elevated art experience or artisan made items for welcome/gift bags. Working exclusively with luxury hotels and resorts throughout Colorado and the U.S., they bring art on location. Their website only highlights the most requested experiences and gift items. Their specialty is customizing to fit each company's needs. When not in the studio or on location, they spend their time exploring either by hiking or road trip. Their favorite thing to do is to take the unbeaten path, discovering the best in food and scenery.

Elevated Art Experience has provided several other types of art experiences (t-shirts, decorated tennis shoes, pool bags, charm bracelets, acrylic painting, earrings, wedding jewelry, mugs), and Colorado Artist receptions. We are able to design branded and incentive items through our Colorado Artisan Concierge Gift Service – 6758” Gifting. Our workshops are perfect if combined with other activities such as wine/whiskey tasting (with a hand painted glass as a memento), afternoon tea breaks, or yoga. All are priced based on the scope of each project requested. We welcome all inquiries!
